Spread the word: Kids eat free this summer!

Again this summer, the Summer Food Service Program is providing children with free, healthy meals, and we need your help spreading the word to families and students. It's

easy to participate and no sign up is required. Simply call (866) 3-HUNGRY, visit <u>education.ohio.gov/KidsEat</u> or download the <u>free Ohio</u> <u>Department of Education mobile app</u> for <u>iPhone</u> and <u>Android</u> and check back regularly to find meal times and locations.

We have started adding sites to our online map, and more locations and times will be added soon. Continue to check back in the coming weeks for new locations in your community.

The program ensures children ages 18 and younger continue to receive nutritious meals during the summer break from school, when they do not have access to school breakfasts or lunches. Children with disabilities who are on approved individualized education programs may participate through age 21. The Ohio Department of Education administers the program with funding from the U.S. Department of Education.

May is Mental Health Month 2017

This year for *May is Mental Health Month*, Mental Health America (MHA) is talking about *Risky Business*. We believe it's important to educate people about habits and behaviors that increase the risk of developing or exacerbating mental illnesses, or *could be signs of mental health problems themselves*. These include risk factors such as risky sex, prescription drug misuse, internet addiction, excessive spending, marijuana use, and troublesome exercise patterns.

We hope the tools and resources that we've put together help individuals and communities to raise awareness of the risks that these types of behaviors present—especially to young people—and help people who may be struggling to detect early warning signs and seek help early, before Stage 4.
